

## EAA 1641 Safety Seminar - Safe and Legal What Pilots Need to Know About Maintenance Records

Maintenance records are not solely the responsibility of mechanics. Owner/operators and pilots need to understand maintenance records requirements in order to safely and legally fly. This seminar will discuss various common scenarios and maintenance records they will require. Topics include: inspection records, AD compliance, Form 337s, and record retention.

“Prior to attending a safety seminar, please review and abide by current CDC, State and Local health guidelines.”

**Directions:** The event will be held at the Bloomsburg Municipal Airport with exact location determined by audience size.
